VVRA AGM A GREAT SUCCESS FOR COMMUNITY COLLABORATION

The Vorna Valley Residents Association (VVRA) Annual General Meeting, held on 18 June 2026 at African Footprint, was a resounding success, bringing together residents, community leaders and stakeholders to celebrate achievements and discuss future plans for our neighbourhood.

The evening highlighted the incredible progress made through the support of residents and sponsors, particularly in strengthening community safety initiatives. The association reported a healthy financial position and thanked the 268 households whose membership contributions continue to make important projects possible.

A major focus of the meeting was the community camera network. Residents heard how funds have been invested in solar-powered cameras, batteries and connectivity solutions to ensure continued surveillance in key areas. Plans are already underway to install additional solar cameras in problem areas to further improve neighbourhood safety.

The committee also shared exciting news regarding the association's application to become a registered Public Benefit Organisation (PBO). Once approved, this status will enable VVRA to offer tax benefits to individuals and businesses that support community projects through donations and sponsorships.

Special appreciation was extended to all sponsors and partners, including TRSS for their ongoing contributions and Laser Guys for assisting with the construction of solar camera boxes at a significantly reduced cost.

The VVRA would also like to extend its sincere thanks to Sandheera from Mid Properties for her generous contribution towards the refreshments served during the AGM. Her support and willingness to contribute to the success of the evening are greatly appreciated and reflect the spirit of community partnership that continues to strengthen Vorna Valley.

Members also participated in constructive discussions around community matters and agreed on important resolutions concerning membership and community group management.

The AGM concluded with an engaging question-and-answer session, allowing residents to raise concerns and discuss matters affecting the suburb, demonstrating the strong sense of community that continues to define Vorna Valley.

The success of this year's AGM is a testament to what can be achieved when residents work together towards a common goal. The VVRA thanks everyone who attended, volunteered, sponsored and contributed to another productive and positive year for our community.

INNOVATIVE SOLAR CAMERA BOXES TO SUPPORT VORNA VALLEY SECURITY

Vorna Valley is set to benefit from an innovative security solution thanks to the generosity and expertise of Andre Mostert and The Laser Guys team.

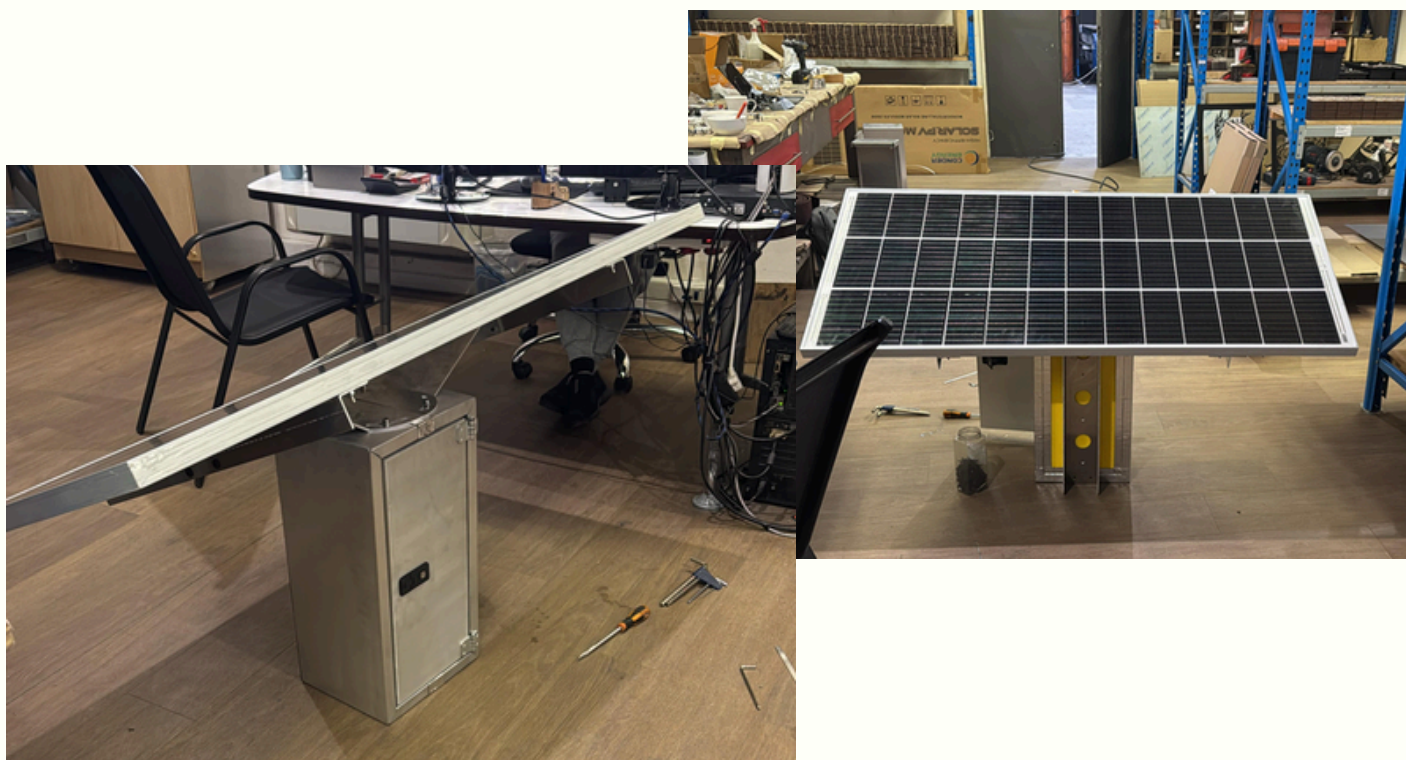

Andre Mostert from the Lazer Guys designed and built solar-powered camera boxes for the community at no charge. The first prototype was successfully deployed at the Smuts and Leroux intersection to help address the power constraints affecting security camera operations in that area.

Following the initial deployment, Andre further refined the design to accommodate site-specific challenges encountered during the pilot installation. These improvements have resulted in two new solar camera box installations, which are expected to be deployed soon.

This initiative represents a meaningful contribution toward strengthening security infrastructure in Vorna Valley while reducing reliance on grid power in areas where power supply has been a challenge.

The Vorna Valley Residents Association extends its sincere appreciation to Andre Mostert and the Lazer Guys team for their generosity, technical expertise, and ongoing commitment to supporting community safety.

Residents will be kept informed as the new solar camera installations are rolled out in the coming weeks.

Market to Your Community - Your Clientele

Dear Valued Community Members,
Thank you for your ongoing
membership support, which directly
funds vital neighbourhood initiatives.

To further boost our collective impact,
we offer local businesses the chance
to advertise in our monthly VVRA
community newsletter.

Advertising here provides direct access to engaged local
residents, building community connection and customer trust.
Best of all, 100% of advertising income is reinvested into our
neighbourhood, funding everything from security and park
upgrades to events and beautification projects.

Grow your business while growing our community.
